

Catalog # 10-1062

Cycloheximide-N-ethylethanoate

Ethyl 2-(4-((R)-2-((1S, 3S, 5S)-3,5-dimethyl-2-oxocyclohexyl)-2-hydroxyethyl)-2,6-dioxopiperidin-1-yl)acetate

Lot # S105156

FKBP12 inhibitor ($IC_{50}=4.4 \mu\text{M}$) with neuroregenerative properties. Does not inhibit protein synthesis (as does cycloheximide).¹ Mimics a helical peptide in target proteins for binding to the immunophilin Mip homolog, BpML1 (*Burkholderia pseudomallei* Mip-like protein 1).²

PHYSICAL DATA

Molecular Weight:	367.44
Molecular Formula:	$\text{C}_{19}\text{H}_{29}\text{NO}_6$
Purity:	99% by TLC
	NMR: (Conforms)
Solubility:	DMSO (up to 15 mg/ml) or Ethanol (up to 3 mg/ml)
Physical Description:	White solid
Storage and Stability:	Store as supplied desiccated at -20°C for up to 1 year from the date of purchase. Solutions in DMSO or ethanol may be stored at -20°C for up to 1 month.

Materials provided by Focus Biomolecules are for laboratory research use only and are not intended for human or veterinary applications.
