Lot # X109531

Potent and selective brain-penetrant GPR139 agonist (EC_{50} =16 nM) an orphan G-protein-coupled receptor expressed in the CNS.¹ Tritium-labeled JNJ-63533054 binds to cell membranes expressing GPR139 and can be displaced by putative endogenous ligands.² Decreases compulsive-like alcohol drinking and hyperalgesia in alcohol-dependent rodents.³ Suppresses morphine intake in a mouse self-administration model.⁴
